

Existing Systems	Pros	Cons	Difference from current project
Acuity Scheduling.	• User-Friendly Interface: Acuity Scheduling offers an intuitive and easy-to-navigate interface, making it simple for both barbers and clients to use. • Appointment Customization: You can customize appointment types, durations, and availability based on your specific services and preferences. • Automated Reminders: The app sends automated reminders to clients via email or SMS, reducing no-shows and improving appointment attendance. • Online Booking: Clients can book appointments online 24/7, even outside of business hours, enhancing convenience. • Integration with Other Tools: Acuity integrates seamlessly with other tools like Zoom, Google Calendar, and payment gateways. • Client Management: It allows you to manage client information, track their history, and maintain detailed records. • Multiple Staff Support: Ideal for barbershops with multiple staff members, as it handles individual schedules efficiently.	• Pricing: While Acuity offers a free version, some advanced features require a paid subscription, which might be costly for small businesses. • Learning Curve: Initially, setting up Acuity and configuring all features may take time, especially for those unfamiliar with scheduling software. • Limited Customization: While it's user-friendly, some users may find limitations in customizing certain aspects of the booking process. • Mobile App Limitations: The mobile app lacks some features available on the web version, which can be inconvenient for on-the-go management. • No Native POS System: Acuity doesn't have a built-in point-of-sale (POS) system, so you'll need a separate solution for handling payments. • Limited Reporting: Although it provides basic reporting, more robust analytics features are missing.	• Payment System: This website/app lacks a payment system. • Communication System: This website/app lacks a communication system. • Rating/Review System: This app lacks a rating/review system.

DaySmart Salon.	• Comprehensive Platform: DaySmart Salon combines a booking calendar for appointments, client management, and point-of-sale (POS) functionalities into one integrated solution. • User-Friendly: It's straightforward for inventory management, scheduling, and adding employees and clients to the system. • Customization and Visibility: You have the ability to customize and see detailed information, making it useful for spa and salon businesses. • Responsive Customer Support: Users appreciate the responsive support team when they need assistance.	• Quickbooks Integration: The Quickbooks feature is only a connector, requiring an additional subscription. • Language Limitation: The platform currently supports only English. • Social Media Booking: It lacks a "Book Now" feature for Facebook, although it does support Instagram. • Phone Support: Phone support is available only on the more costly plans.	• Payment System: This website/app lacks a payment system. • Automated Reminder: This website/app lacks a reminder system. • Rating/Review System: This website/app lacks a rating/review system.
Mindbody.	• Self-Service Booking: Clients can book sessions themselves, which is a plus for business owners. • User-Friendly: The software has a user-friendly interface. • Swift Payment Processing: MindBody processes payments swiftly and provides instant notifications.	• Navigation Challenges: Some users find the software challenging to navigate. • Customer Experience: While it has strengths, there are mixed reviews regarding customer service and support.	• Automated Reminder: This website/app lacks a reminder system. • Rating/Review System: This website/app lacks a rating/review system. • Communication System: This system lacks a communication system.
Vegaro.	• Customizable Subscription: Vegaro allows you to customize your subscription to meet your specific business needs. • User-Friendly Interface: Both the website and app are easy to navigate. • Comprehensive Reports: Users appreciate the availability of detailed reports. • Client Booking Convenience: Clients find it easy to book appointments online, and customizable confirmation notifications enhance the experience.	• Page Loading and Glitches: Some users report that pages could load faster, and occasional glitches may occur. • Advertisement Distractions: There is some advertisement for other companies, which can be distracting. • Lack of Apple Pay Support: Vegaro lacks Apple Pay support, which is a notable omission. • Switching Challenges: Users who switched from other platforms sometimes find it less preferable but feel trapped due to the transition.	• Automated Reminder: This website/app lacks a reminder system. • Rating/Review System: This website/app lacks a rating/review system. • Communication System: This system lacks a communication system.

WellnessLiving.	• User-Friendly Interface: WellnessLiving offers an intuitive and easy-to-use interface, making it accessible for both business owners and clients. • Comprehensive Reports: Users appreciate the availability of detailed reports, which can help track business performance and client engagement. • Customizable Subscription: WellnessLiving allows you to tailor your subscription to meet your specific business needs, providing flexibility. • Client Booking Convenience: Clients find it easy to book appointments online, and customizable confirmation notifications enhance the overall experience.	• Browser Sensitivity: Some users report that the software's sensitivity to different browsers, devices, and updates can be frustrating. • Credit Card Swiping Feature: The credit card swiping feature on mobile devices is virtually non-functional, which can be a limitation. • Customer Support Response Times: While the support staff is generally positive, there have been mixed reviews regarding response times.	• Communication System: This system lacks a communication system. • Rating/Review System: This website/app lacks a rating/review system. • Automated Reminder: This website/app lacks a reminder system.
Zenoti.	• Robust Functionality: Zenoti offers self-check-in, one-touch booking, real-time chats, and contactless auto-payments via a custom mobile app. • Secure Payments: The app's secure payments system supports both in-store and online payments via Apple Pay, Samsung Pay, or Android Pay.	• Pricing Transparency: The company does not readily display its pricing online, which can be a drawback for potential users. • Learning Curve: Some users find the onboarding process and implementation to be slow and challenging.	• Automated Reminder: This website/app lacks a reminder system. • User-Friendly Interface: This website/app lacks a User-Friendly Interface.
TheCut App	• Easy to Use: TheCut provides an intuitive and straightforward interface for managing appointments and customers. • Transition Flexibility: It allows for a smooth transition from a corporate-model barbershop to a booth rental opportunity. • Client Booking Convenience: Customers can easily download the app, create profiles, and book appointments. • Positive Barber Experience: Users appreciate the app's punctuality, courtesy, accommodating features, and attention to detail.	• Payment Upfront: Some barbers may list "pay upfront," which can catch clients off guard. • Limited Customer Support: While overall positive, there have been mixed reviews regarding customer service response times.	• Communication System: This system lacks a communication system. • Automated Reminder: This website/app lacks a reminder system.

Setmore	• Free for up to four users: Setmore offers a free plan, making it an excellent choice for those just starting out. • Affordable premium plans: The premium plans start at \$5 per user, per month and provide additional features. • User-friendly interface: Setmore’s interface is intuitive and easy to navigate. • Two-way calendar sync: It syncs seamlessly with Google or Office365 calendars. • Hassle-free reminders: Setmore sends reminders to clients, reducing no-shows. • Integrates with 3rd party software: It works well with other tools like Square, Stripe, and PayPal.	• Sync issues from time to time: Some users experience occasional synchronization problems. • Cluttered layout on scheduling form: The scheduling form layout can be overwhelming. • Limited reporting and analytics: While it provides basic reporting, more robust analytics features are missing.	• Appointment System: This website/app lacks an appointment system. • Communication System: This website/app lacks a communication system.
StyleSeat	• User-Friendly Interface: Many users have found StyleSeat to be incredibly user-friendly, with an up-to-date software design that is both professional and aesthetically pleasing. • Convenient Booking: Clients can easily book appointments through the app, enhancing convenience for both stylists and customers. • Review System: StyleSeat allows clients to leave reviews, which can positively impact a stylist’s business.	• Booking Fees: Some clients complain about the booking fees associated with using StyleSeat, which may affect tips received by stylists. • Limited Features: Users have expressed a desire for additional features like billing and invoicing, automated scheduling, and attendance tracking. • Customer Service: StyleSeat lacks a direct customer service phone number, relying solely on email support, which can be frustrating for users in need of immediate assistance.	• Communication System: This website/app lacks a communication system.

Square Appointments	• Easy to Use and Mobile-Friendly: Square Appointments offers an intuitive interface that is easy to navigate, especially on mobile devices. • Flexible Plans: You can choose from various plan options, including a free plan for one location. Custom pricing is available for businesses processing over \$250,000 annually. • Integrated Ecosystem: It seamlessly integrates with other Square products, such as point-of-sale (POS) systems, making it convenient for businesses already using Square. • Automated Reminders: Square Appointments sends automated reminders to clients, reducing no-shows. • Comprehensive Features: The free plan includes scheduling, online booking, staff and client management, integrations, operations, and reporting.	• Reliant on Other Square Products: While integration is a strength, some users may find it heavily reliant on other Square tools. • Specialized Alternatives: Other appointment scheduling apps may offer more specialized features tailored to specific industries. • Free Plan Limitations: The free plan is limited to one location, which may not suit businesses with multiple branches.	• Communication System: This website/app lacks a communication system. • Rating/Review System: This website/app lacks a rating/review system.
Schedulicity	• User-Friendly Interface: Schedulicity offers an intuitive and easy-to-use interface, making it accessible for both business owners and clients. • Comprehensive Reports: Users appreciate the availability of detailed reports, which can help track business performance and client engagement. • Customizable Subscription: Schedulicity allows you to tailor your subscription to meet your specific business needs, providing flexibility. • Client Booking Convenience: Clients find it easy to book appointments online, and customizable confirmation notifications enhance the overall experience.	• Browser Sensitivity: Some users report that the software's sensitivity to different browsers, devices, and updates can be frustrating. • Credit Card Swiping Feature: The credit card swiping feature on mobile devices is virtually non-functional, which can be a limitation. • Limited Reporting: While it provides basic reporting, more robust analytics features are missing.	• Rating/Review System: This website/app lacks a rating/review system. • Communication System: This website/app lacks a communication system.
